

BRIDGE AND TUNNEL TOLLS

MACKINAC BRIDGE TOLL
(Mackinac City to St. Ignace)
906-643-7600

Passenger Vehicle	\$4.00
Motor Home (per axle)	2.00
Semi-trailer (per axle)	5.00
Motorcycle	4.00

INTERNATIONAL BRIDGE TOLL
(Sault Ste. Marie, Michigan to Sault Ste. Marie, Ontario)
906-635-5225 ext. 0

Passenger Vehicle	\$3.00
Recreational Vehicle (per axle)	2.75
Commercial and Buses (per axle)	4.00
Motorcycle	1.50

AMBASSADOR BRIDGE TOLL
(Detroit, Michigan to Windsor, Ontario)
877-880-6446

Passenger Vehicle (incl. Driver and Passengers)	\$5.00
Passenger Vehicle w/Trailer	10.00
Commercial Vehicle, Truck, Semi-Tractor/Trailer	10.00

DETROIT-WINDSOR TUNNEL TOLL
(Detroit, Michigan to Windsor, Ontario)
313-567-4422, ext. 219

Passenger Vehicle	\$4.75
Tractor in Tow	7.00
Truck (incl. Driver) and Tractor/Trailer	(min.) 4.75
Bus	8.50

BLUE WATER BRIDGE TOLL
(Michigan to Sarnia, Ontario)
810-984-3131

Passenger Vehicle	\$3.00
Commercial Vehicle, per 20,000 lbs. on Canadian side only	\$46.00
Tractor (per axle)	3.00

MICHIGAN Truck Operator's Map 2014

Those state highways identified in green and gold have been designated for operation of the following combination:

NATIONAL TRUCK NETWORK
SPECIAL DESIGNATED HIGHWAYS

WIDTH
102' including load.

LENGTH
Truck tractor, semi-trailer or truck tractor and 2 semi-trailers; no overall length limitation providing the length of each semi-trailer including load does not exceed 28' 6" or the overall length of the semi-trailer and trailer or 2 semi-trailers are measured from the front of the first towed unit to the rear of the second towed unit while the units are coupled together and does not exceed length of 56' including load.

TABLE OF MAXIMUM ALLOWABLE GROSS LOADINGS

Spacing Between Axles	Normal Loadings when Seasonal Load Limitations are Not in Force		Seasonal Load Limitations (Speed Limit 35 mph)	
	80,000 lbs. Gross Weight	80,000 lbs. Gross Weight	Rigid Formula Gross Weight	Flexible (5% Reduction)
9' or over	18,000 lbs.	20,000 lbs.	13,500 lbs.	11,700 lbs.
3 1/2' or more but less than 9'	13,000 lbs.	N/A	9,750 lbs.	8,450 lbs.
When part of a tandem axle assembly	16,000 lbs.	34,000 lbs. on tandem	11,200 lbs.	11,400 lbs.
When less than 3 1/2'	9,000 lbs.	N/A	6,750 lbs.	5,850 lbs.
Maximum load on any wheel shall not exceed (pounds per inch of tire width)	700 lbs.	700 lbs.	525 lbs.	450 lbs.

*Gross vehicle weight may not exceed 80,000 lbs. and the following: An overall gross weight on a group of two or more consecutive axles equaling: W = 500(LN + 12N + 36)

Where W = overall gross weight on a group of 2 or more consecutive axles to the nearest 500 lbs., L = distance in feet between the extreme of a group of 2 or more consecutive axles, and N = number of axles in the group under consideration except the 2 consecutive sets of tandem axles may carry a gross load of 17,000 lbs. per axle when the first and last axles of the consecutive sets of tandem axles are not less than 36" apart, and the gross vehicle weight does not exceed 80,000 lbs., including all enforcement tolerances. Except for 5-axle truck tractor, semi-trailer combinations having 2 consecutive sets of tandem axles, vehicles having a gross weight in excess of 80,000 lbs. or in excess of the vehicle gross weight determined by application of the formula in this subsection shall be subject to the maximum axle loads specified in column 2 (Normal Loading when Limitations are Not in Force).

A vehicle or combination of vehicles when operating within 5 miles from a "Special Designated Highway" for access to or from points of origin or destination, must reduce to the axle weights specified in the "Seasonal Load Limits" table above when the route being traveled is under seasonal load limitations.

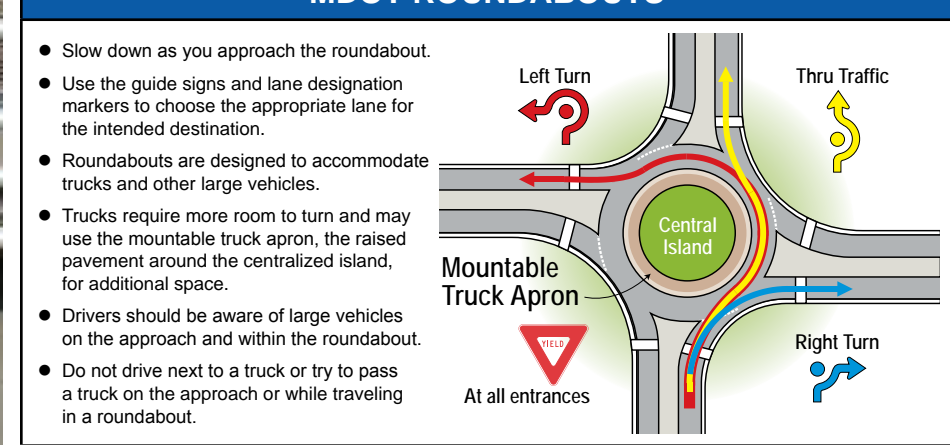

*On any legal combination of vehicles, only 1 tandem axle assembly shall be permitted at the gross weight of 16,000 lbs. per axle and no other tandem axle assembly in such combination of vehicles shall exceed a gross weight of 13,000 lbs. per axle. On a combination of truck tractor and semi-trailer not having more than 5 axles, load, 2 tandem axle assemblies shall be permitted at a gross weight of 16,000 lbs. per axle, if there is no other axle within 9' feet of any axle of the assembly.

TABLE OF BRIDGES WITH SPECIAL LOAD LIMITS

MICHIGAN LAWS
For more information regarding Michigan traffic laws, visit: www.michigan.gov/drive

SPEED LIMITS
Non-highway statewide speed limit unless otherwise posted: 55 mph
Limited access freeway speed limit unless otherwise posted: 70 mph
Freeway truck and school bus speed limit: 60 mph
Minimum freeway speed: 55 mph
If speed limit is 70 mph, unless 55 mph

SAFETY BELTS
Drivers, front-seat passengers regardless of age, and all passengers ages 8 through 15 are required to wear properly adjusted safety belts.

LITTERING IS AGAINST THE LAW
Michigan's anti-litter law provides that the "DRIVER of a vehicle or vessel is PRESUMED RESPONSIBLE FOR LITTER that is thrown, dropped, dumped, deposited, placed or left from the vehicle or vessel on public or private property, or waters."

RAILROAD CROSSINGS
MOTORISTS are required to stop when lights are flashing and/or crossing gates are activated at a railroad crossing, and are prohibited from driving through a crossing gate when they are lowered.

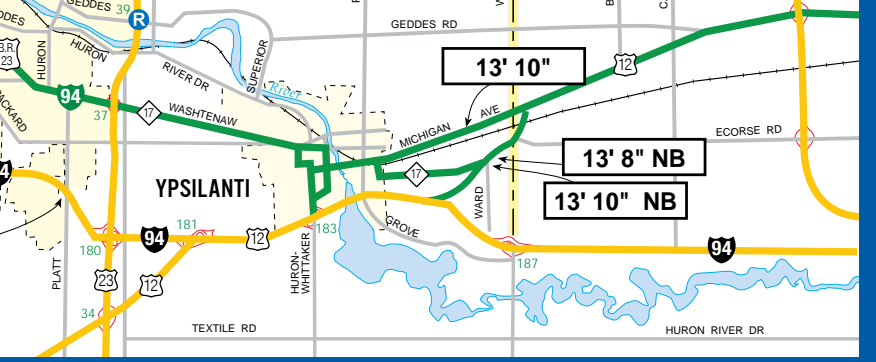

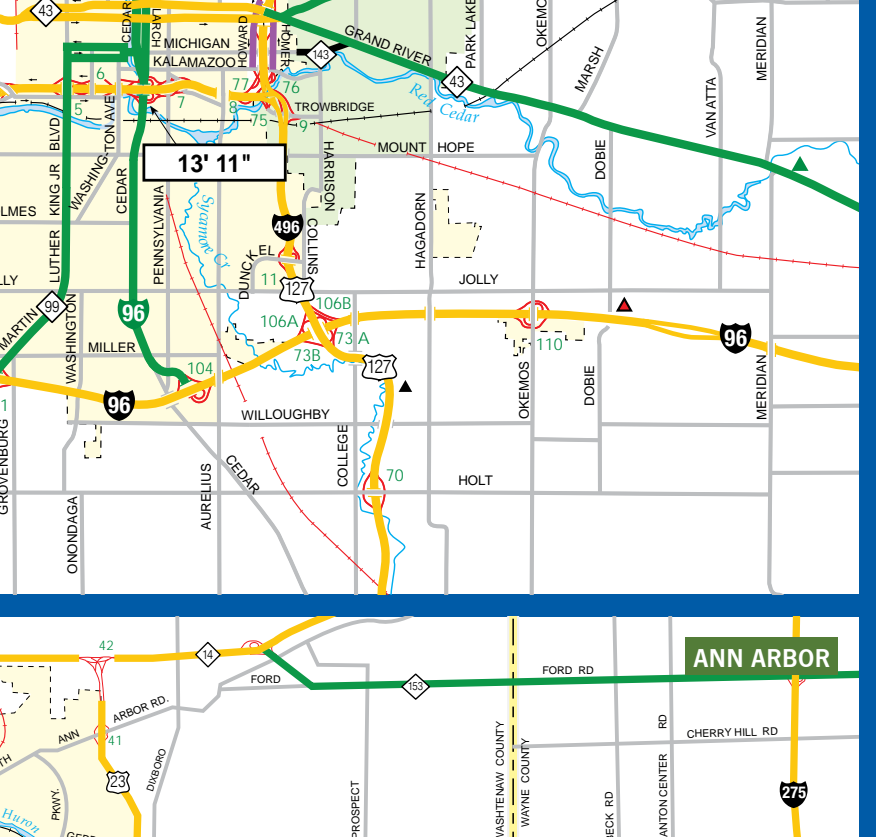

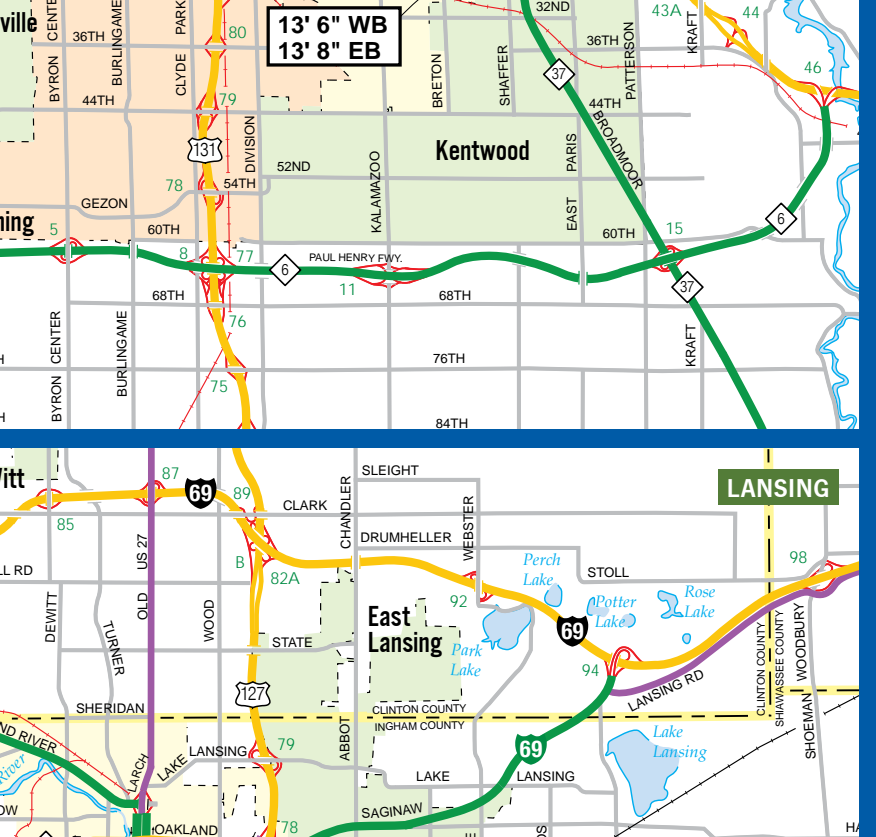

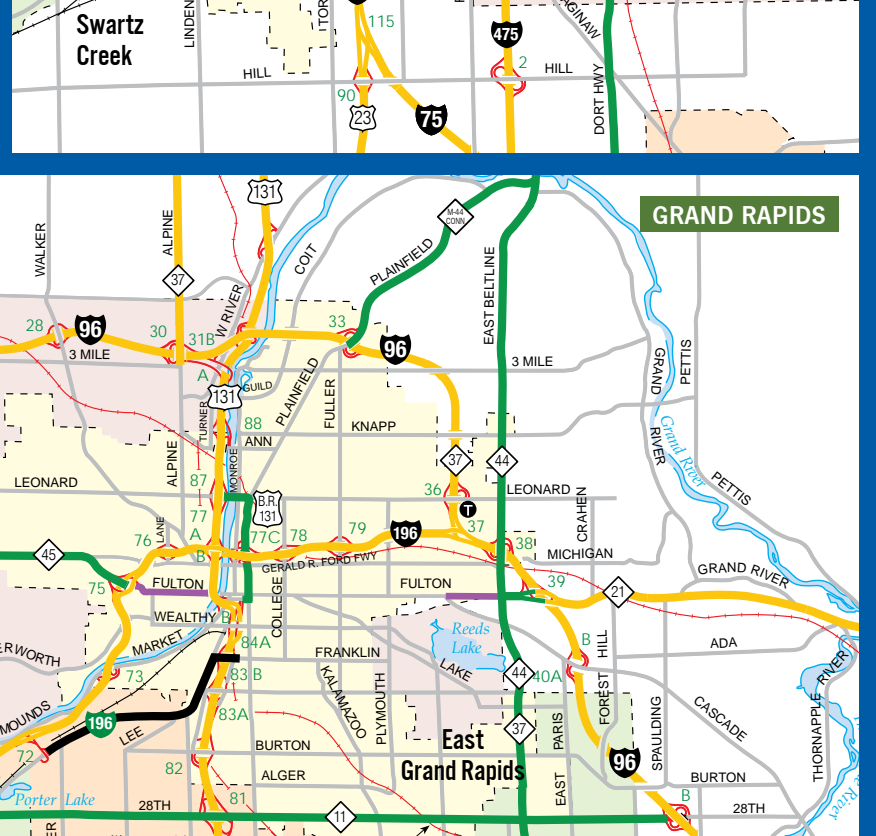

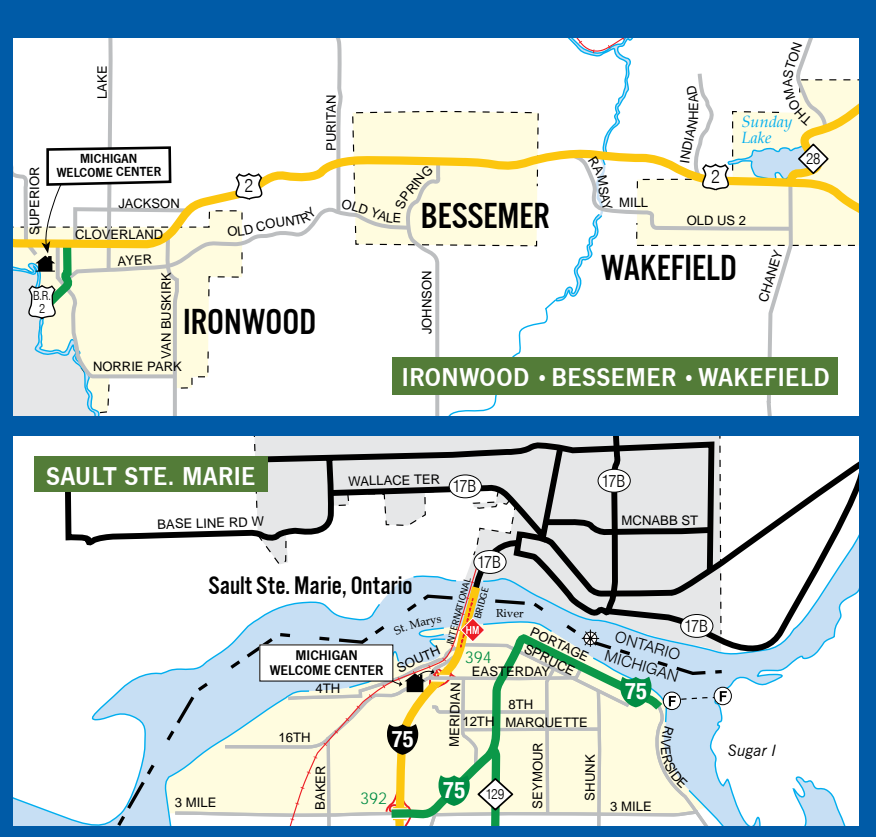

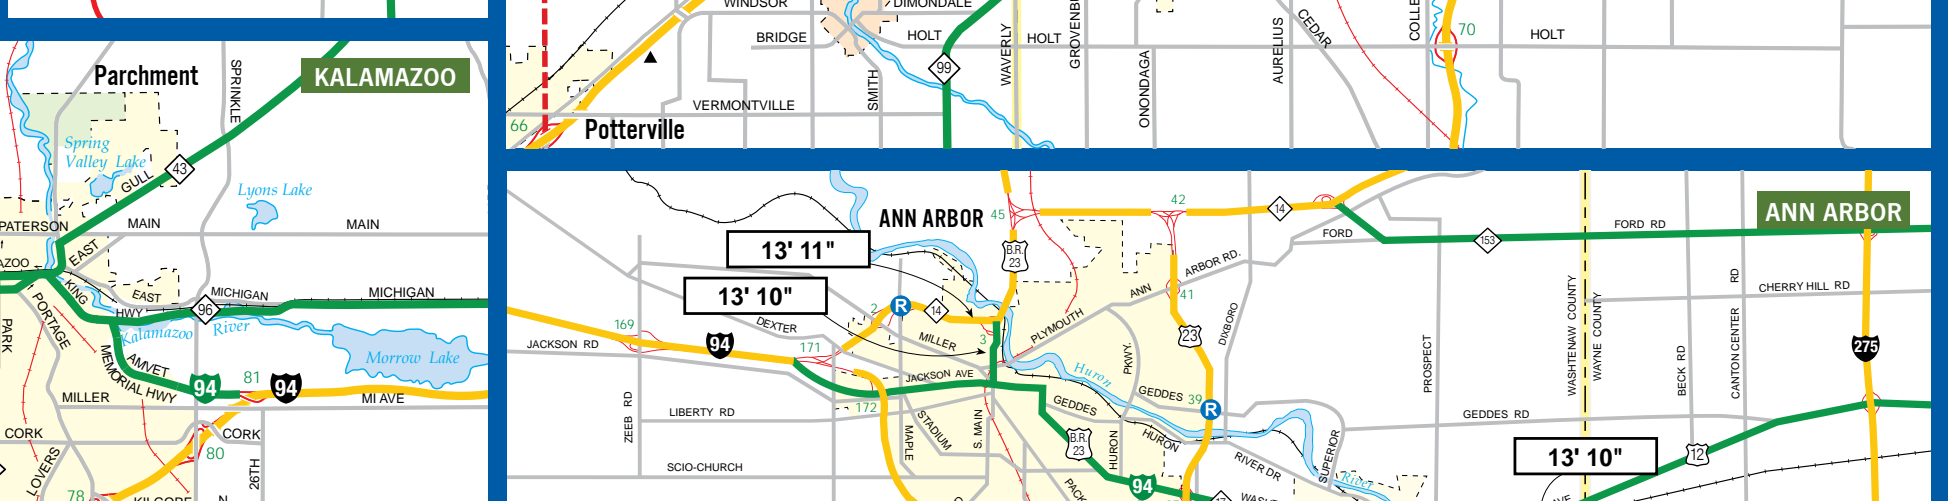

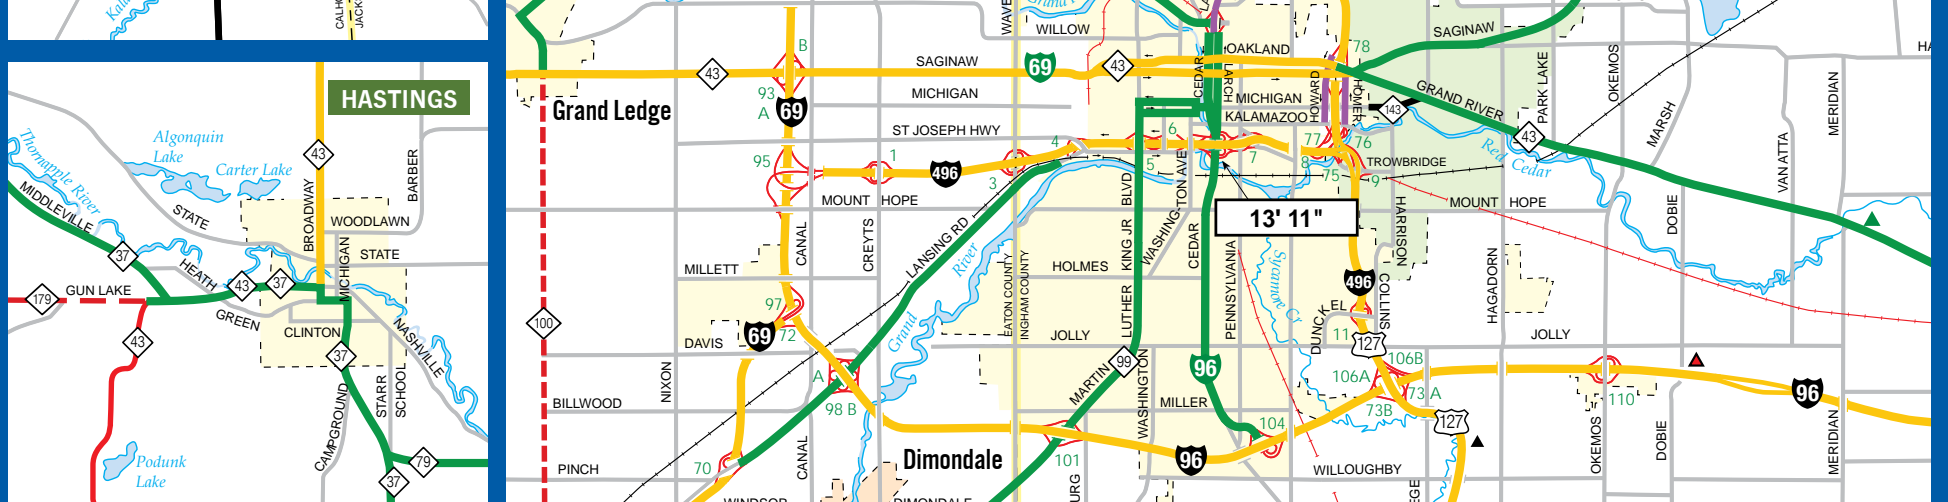

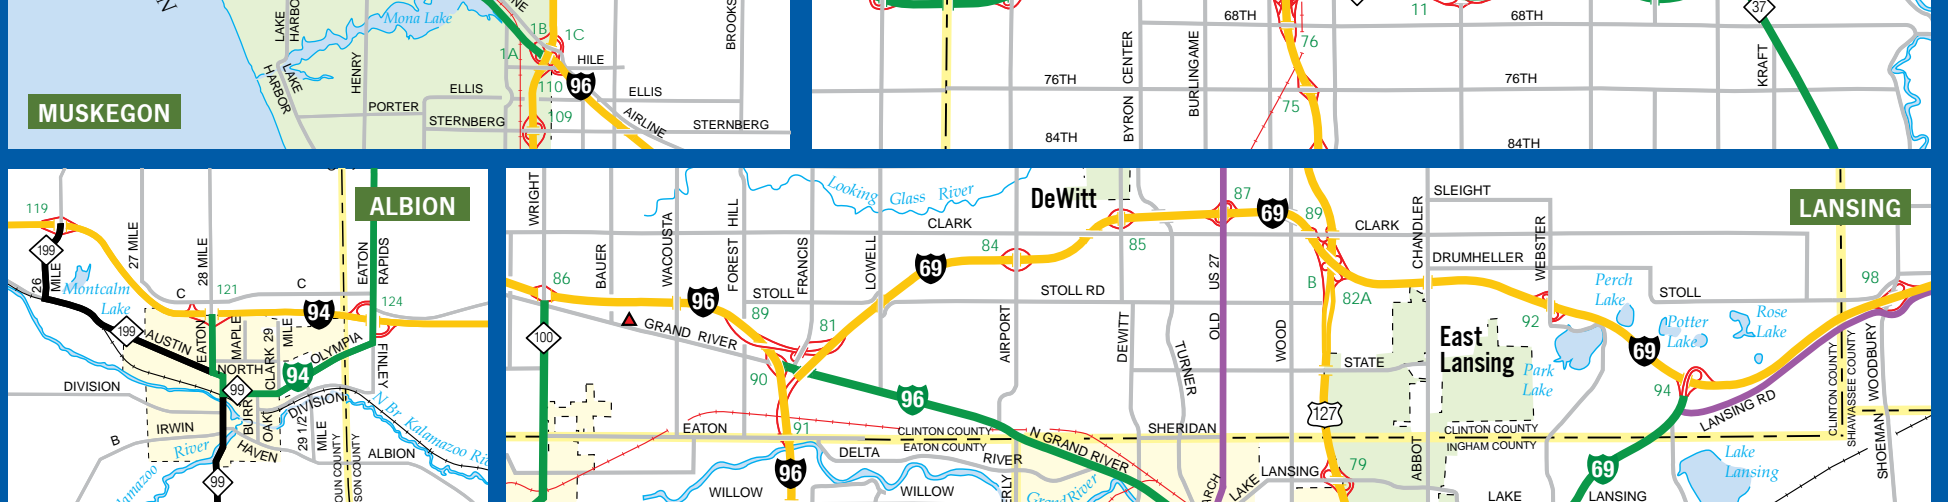

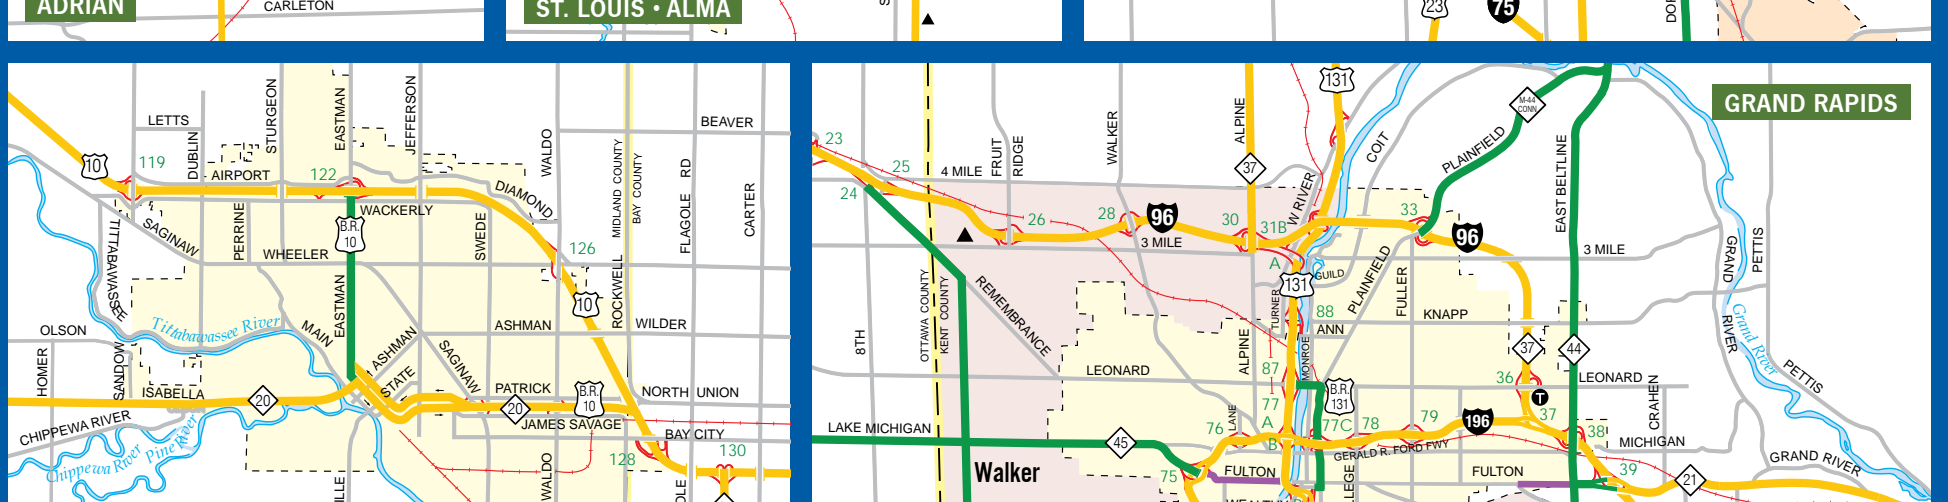

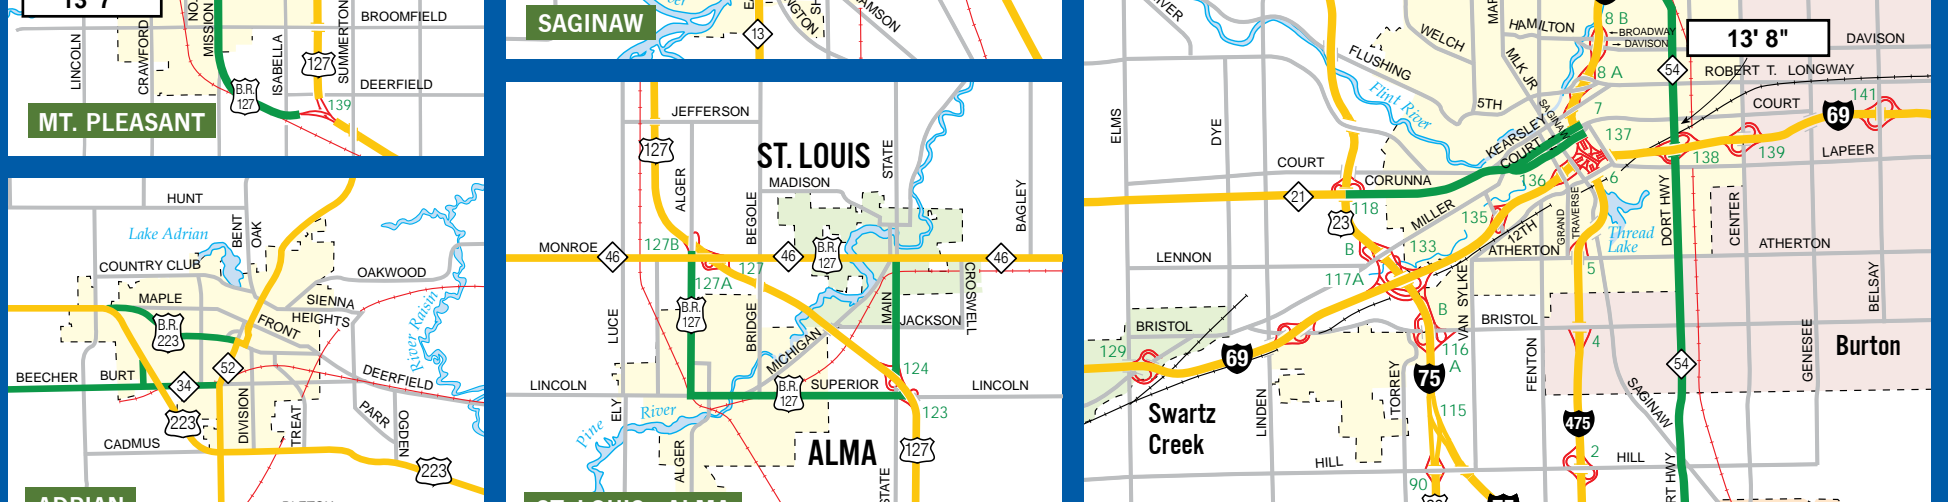

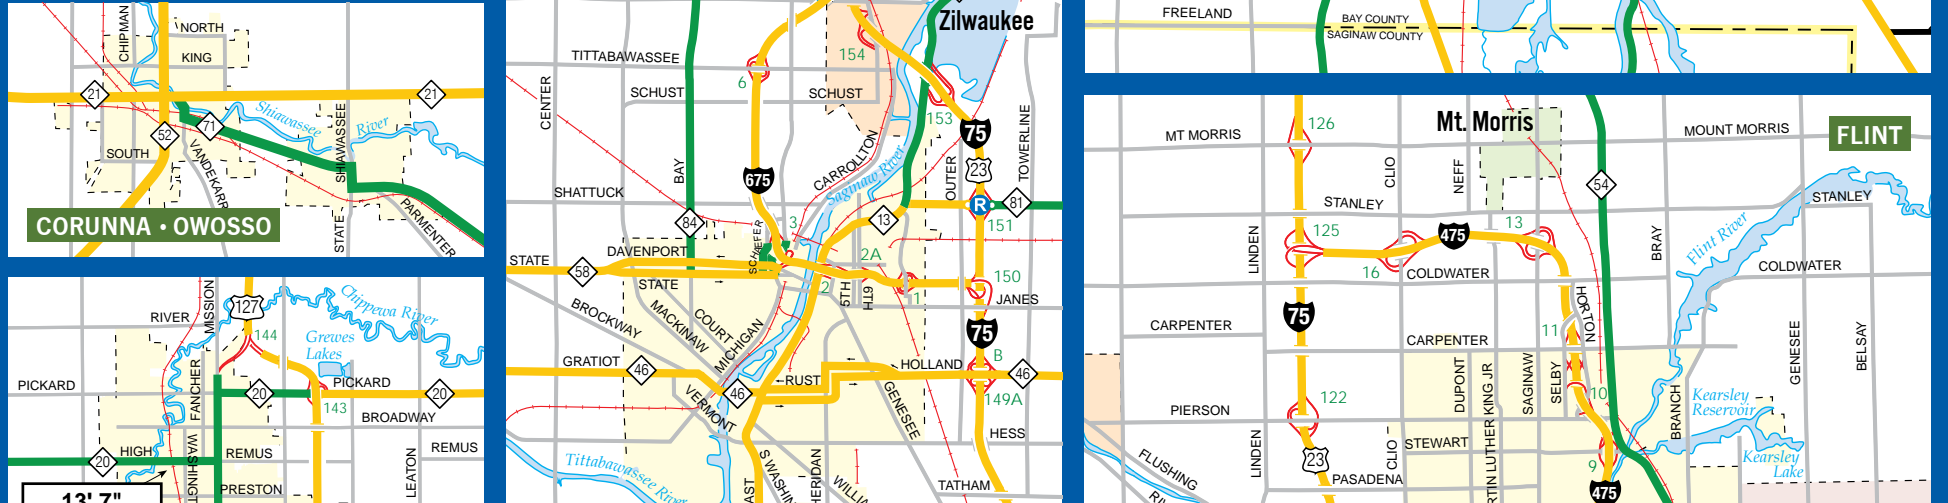

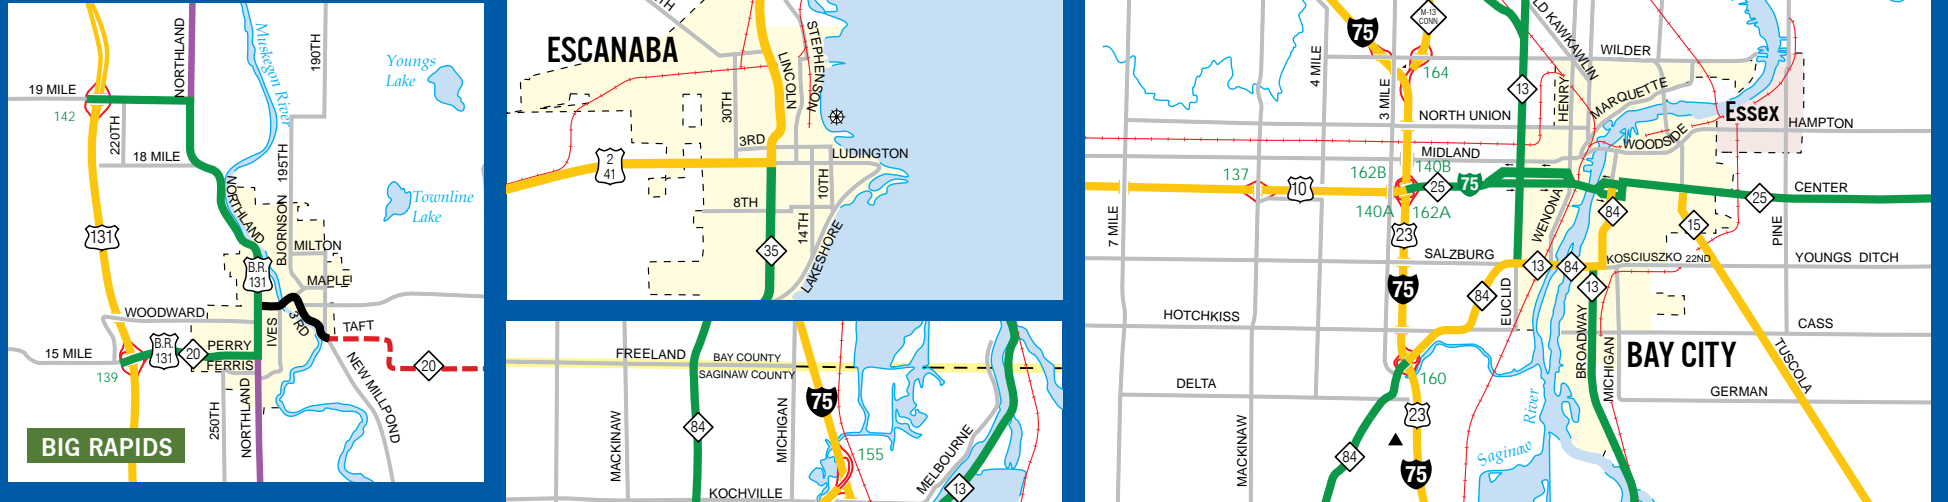

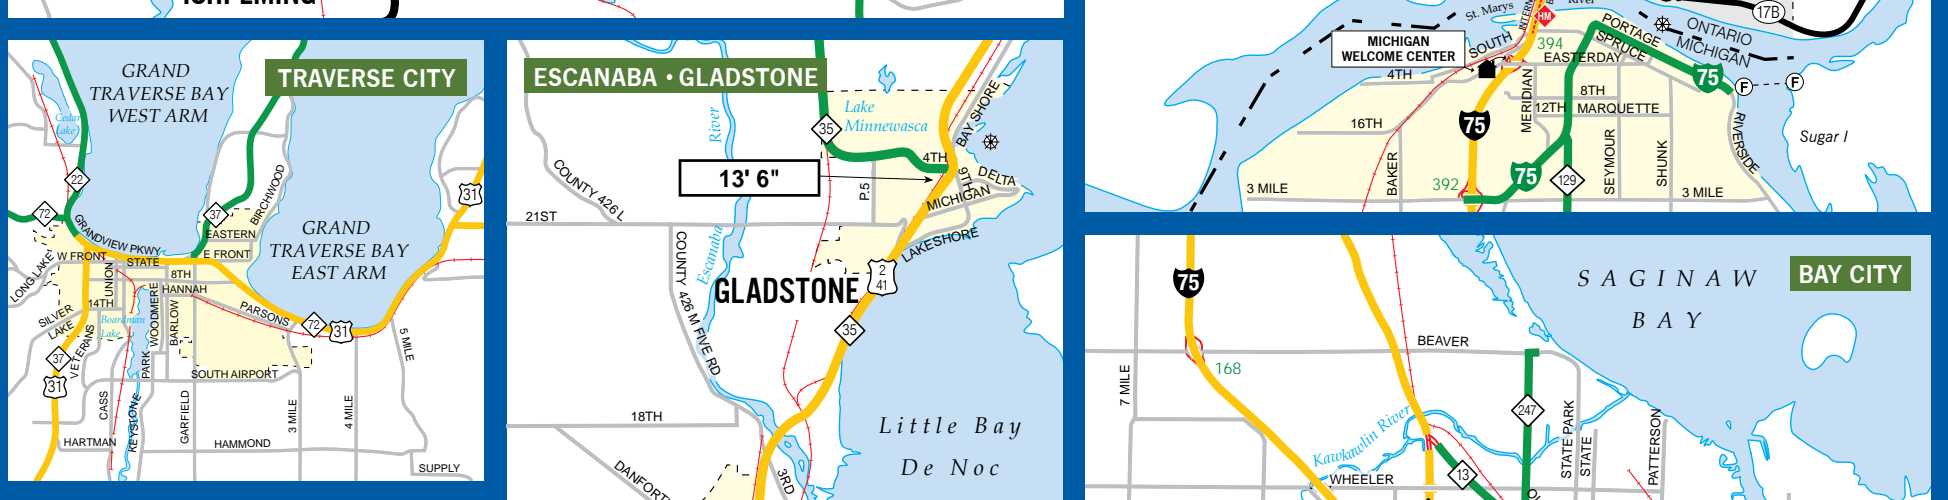

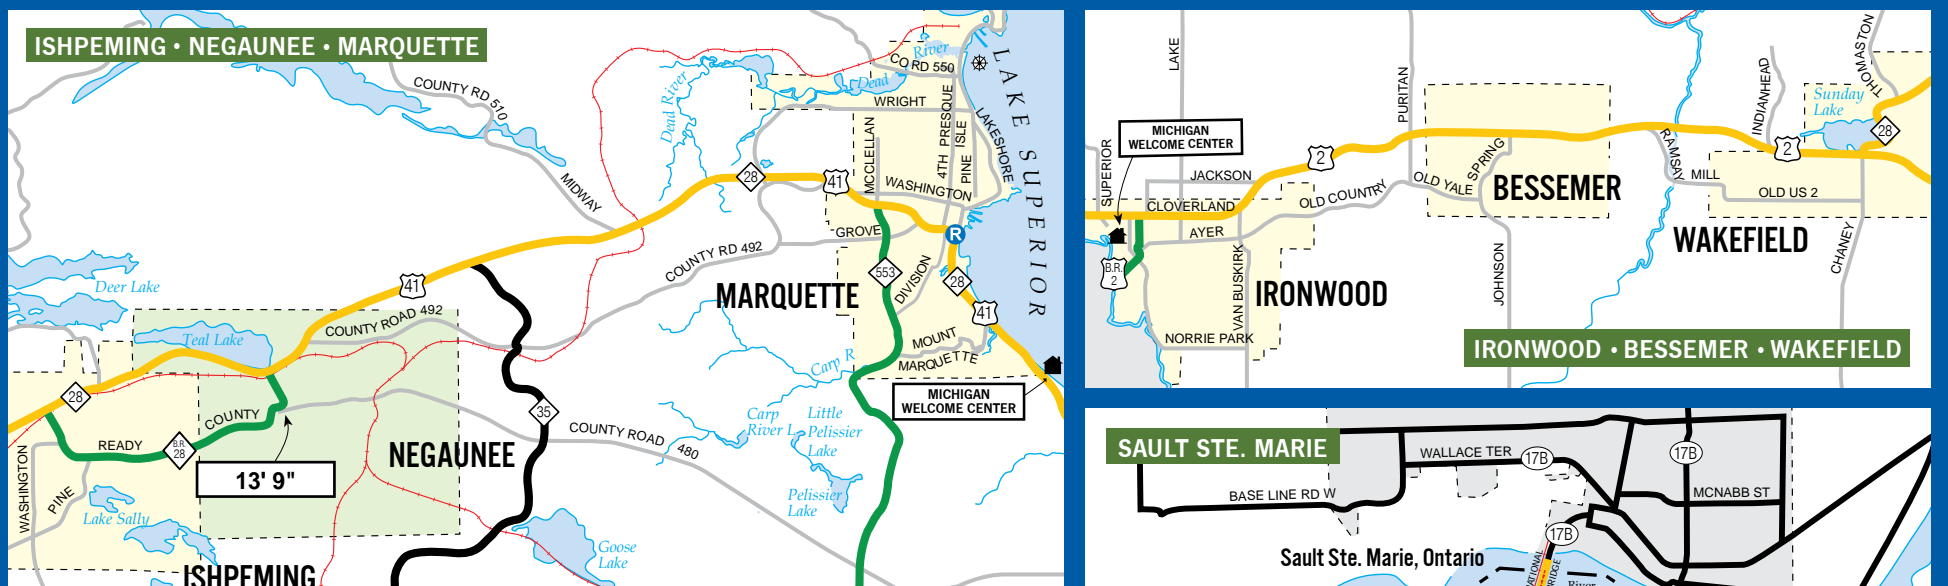

YIELDING TO EMERGENCY VEHICLES
Drivers are required to immediately pull over to the right and stop upon the approach from either direction of an emergency vehicle with lights activated.

WEIGHT RESTRICTIONS
MDOT's M Drive website has vital information for truckers, including construction restrictions, permits, and rules and guidelines. Visit www.michigan.gov/drive and click on the "Truckers" link.

TEXTING WHILE DRIVING
A person shall not read, type, or send a text message while operating a motor vehicle.

SHARE THE ROAD WITH BICYCLES
Motorists are reminded that bicyclists are permitted to ride on most roadways in Michigan. Bicyclists are reminded that as legal roadway users, they are required to obey all traffic laws, signs and signals. A person operating a bicycle upon a highway or street with less than the existing speed of traffic shall ride as close as practicable to the right-hand curb or edge of the roadway.

WHERE WORKERS PRESENT 45
Watch for signs in work zones: "Where Workers Present" sign (in order to be considered "present," workers must be protected only by cones or barrels. If they are on the other side of a guardrail, concrete barrier, or median, the message would not apply). The speed reduction applies to the immediate vicinity of the worker, not to the entire work zone. In Michigan, fines are doubled in work zones.
